Ko Asrama Polisi, Jalan Ko Asrama Polisi Blok N No.20, RT.2/RW.7, Ketintang, Gayungan, Surabaya

I am a web developer focused on full-stack development, starting from experience as a frontend developer. I have a high enthusiasm for new technologies, especially those related to web development. I really enjoy the process of creating website animations and continue to hone my skills in frontend development to create engaging and interactive user experiences.

Education Level

Electronic Engineering Polytechnic Institute of Surabaya - Surabaya, Indonesia

Jun 2021 - Aug 2024

Diploma in Majoring in Informatics Engineering, 3.71/4.00

Work Experiences

PT. Circle IT - Gresik, Indonesia

Dec 2023 -

Developer, Freelance, Full Stack Web Developer

Circle IT is a IT consulting firm dedicated to revolutionizing business operations through cutting-edge technology solutions.

Our commitment to excellence, meticulous project management, and innovative approach ensure that each client's needs are met with precision and professionalism. With a track record of success spanning diverse industries, Circle IT has become the trusted partner of choice for businesses seeking to optimize their IT infrastructure and drive growth.

Our core services include website development, custom software solutions, and mobile application development for both Android and iOS platforms. We pride ourselves on delivering comprehensive, tailored solutions that exceed client expectations.

- Directly manage projects based on client requests, from needs analysis to solution implementation. Responsible for UI/UX design of websites and applications. As a team leader in Scrum, I lead sprint planning with the Product Owner and development team, setting goals, selecting backlog items, and ensuring alignment with the product vision for focused and effective sprints.

PT. Webcare - Sidoarjo, Indonesia

Jul 2023 - Dec 2023

Developer, Internship, Front End Web Developer

Webcare.idn is a start-up that operates in the technology sector to help business people and companies create their dream websites. We offer websites at very affordable costs and are also ready to use immediately.

- Led a team of 3 developers to create websites using Bootstrap and Laravel for Webcare projects, featuring an Admin Dashboard and client pages. Also built client websites directly using WordPress.

PT. Eduskill - Surabaya, Indonesia

Aug 2023 - Jan 2024

Developer, Freelance, Front End Web Developer

The platform increases Programming Skills based on project Review in the technology industry with the support of MentorBot.

- Led a team of 2 developers and 1 UI/UX designer to create the Eduskill website landing page and programming learning course. Developed the site using ReactJs and managed the database. Implemented code reviews, compiler programs, and an AI MentorBot via API for the programming course. Collaborated closely with the team to build the website based on Figma design slices.
