

# M U H A M M A D T A U F I Q R A M A D H A N

## PERSONAL PROFILE

I completed my Master's program in IT Convergence Engineering at KIT, South Korea, in August 2020, with a focus on analyzing, visualizing, and forecasting time-series data. I am deeply passionate about IT and constantly eager to expand my knowledge.

During my undergraduate studies, I specialized in Operation Technology subjects such as Arduino, Android, and PLC. Now, as a software development professional, I leverage my expertise to design effective IT-OT solutions as Business System Analyst

## LANGUAGE SKILLS

Indonesian : Active  
English : Intermediate  
Korean : Basic

## QUALIFICATION

Microsoft Office  
Presentation and Reporting  
Communication & Negotiation  
Data Validation  
Digital Product Design  
BRD, FSD, User Manual and UAT Doc Preparation  
Software Quality Control  
Business Process Mapping  
Project Management

## CONTACT DETAILS

mtaufiqrama@gmail.com

+62851-5664-8533

## EDUCATIONAL BACKGROUND

**SARJANA SAINS TERAPAN (S.ST.)  
[AUTOMATION ENGINEERING] 2012-2016**

Shipbuilding Institute of Polytechnic Surabaya (PPNS Surabaya)  
GPA 3.43/ out of 4.00

### Project Experiences :

- Six legged robot development
- Automatic fish feeder using Arduino
- Automatic water sprayers on grass field with Arduino

### Organization Experiences :

- Head of Research and Technology department of HIMATO (Student organization)
- Participant of Business Planning event by KEMDIKBUD
- Crew team of KRI(Indonesia Robot Contest)

**BACHELOR OF ENGINEERING (B.ENG.)  
[AUTOMOTIVE ENGINEERING] 2015-2017**

Daegu Chatolic University (South Korea)  
GPA 3.42/ out of 4.50

### Project Experiences :

- Moving Slide Power Point based Motion Gesture with Kinect
- Implementation CIM (computer integrated manufacturing) with object Tuna's Canned food process factory

### Organization Experiences :

- Member of PERPIKA (Student organization in korea)
- Staff of Entrepreneurship departement in PERPIKA

**MASTER OF ENGINEERING (M.ENG.)  
[IT CONVERGENCE ENGINEERING] 2018-2020**

Kumoh National Institute of Technology (South Korea)  
GPA 4.25/ out of 4.50

### Project Experiences :

- Drone with automatically VTOL and Landing Pad
- Development of UAV routing protocol for civil and military
- Time-Series Data Anomaly Detection using Online Learning Approach
- Accurate Movement Prediction Model for UAV Mobility in 3D Space using Bi-LSTM (Final Thesis)

### Organization Experiences :

- Crew organizer of Indonesian student education conference (CISAK)

## WORK EXPERIENCES

- Full-time Researcher at Networked System Laboratory (2018-2020)
- IT Technical Support at PT. Meratus Line (2021-2023)
- IT Business System Analyst at PT. Meratus Line (Present)

# **2023 - 2024**

## **Project Handled as a Business Analyst**

**Muhammad Taufiq Ramadhan**

# **Vessel Inspection Tools (Phase 2)**

# MERATUS MAKASSAR

## SUMMARY

## BUNKER INSPECTION REPORT

### GENERAL RATING OF THE VESSEL

ssar	VCR	
	3.05	
	Good Condition (L)	

3.71 - 4.00  
VERY GOOD

### Mobile Inspection

Conduct inspections by uploading images and descriptions

### Corrective Action

SM & Superintendent review dependencies and take corrective actions based on inspection results.

### Inspection Review & Follow-up Assignment

Review and complete the conducted inspections, and assign corrective actions to the SM & Superintendent

### Update Follow-up

Enable updating of corrective actions by image and description, allowing anyone to monitor the progress of the follow-up.

### Review and Closing Inspection

# Project Contribution

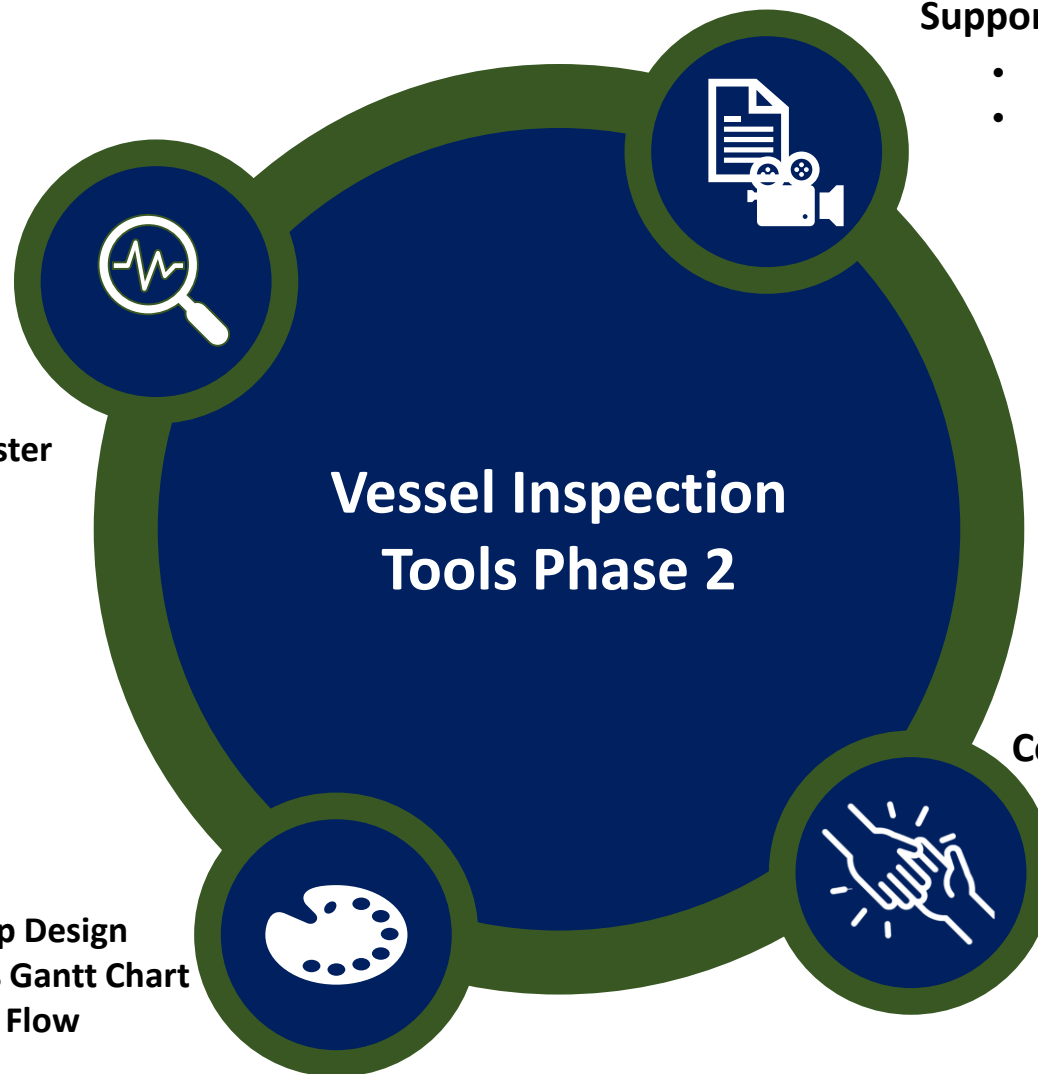

## Project Analysis

- Project Development Planning
- Business Process Mapping
- User Requirement Gathering
- Communication & Negotiation
- User Acceptance Testing
- Software Quality Assurance Tester
- Data Analysis & Validation

## Design

- Software Mockup Design
- Business Process Gantt Chart
- Data Acquisition Flow

## Supporting Material

- Functional Specification Document
- User Manual Book and Video

## Coordination & Collaboration

- Application Support
- Project Workshop

# **Vessel Bunker System**

# Vessel Bunker System (Main Project)

Vessel Supply

Vessel Consumption

Pumping Records

Main Recording | Detail Recording | Connection Config

▶ SIMULATION ⚙ CONNECT ▶ START ⏹

32,7314 Mass Flow Rate [T/h]	0,9498 Density [G/cm3]	34,6765 Temperature [C]	29,1... Drive Gain[%]
157.101,9 Mass Inventory [Ton]	0,2329 Mass Total [Ton]	172.707,5 Vol Inventory [m3]	0,2549 Volume Total [m3]
104.817,5 Mass Target [Ton]	244,3751 Vol Final Figure [m3]	99.879,19 Up Value [Ton]	97.881,61 Down Value [Ton]
			0,9529 Density Sampling

Supply Planning, Passage P, Vessel Schedule

Standard Consumption

# 2024 Vessel Bunker System

## Features Released:

### Remote Monitoring System Dashboard

Vessel Tracking

Vessel Map

Vessel Activity

Vessel Timeline

Vessel Detail

Fleet Monitoring

Bunker Supply Recording

Bunker Supply Report

Bunker Supply Alert

# **Claim Management System (Phase 1)**

# Features

## Incident Tracking

Manage incident input, reporting and historical incident data.

## Claim Tracking

Manage Claim input, reporting and historical incident data.

## Incident – Claim Integration

Link multiple claims to a target incident. Merge all information into a single field.

## Email Notification

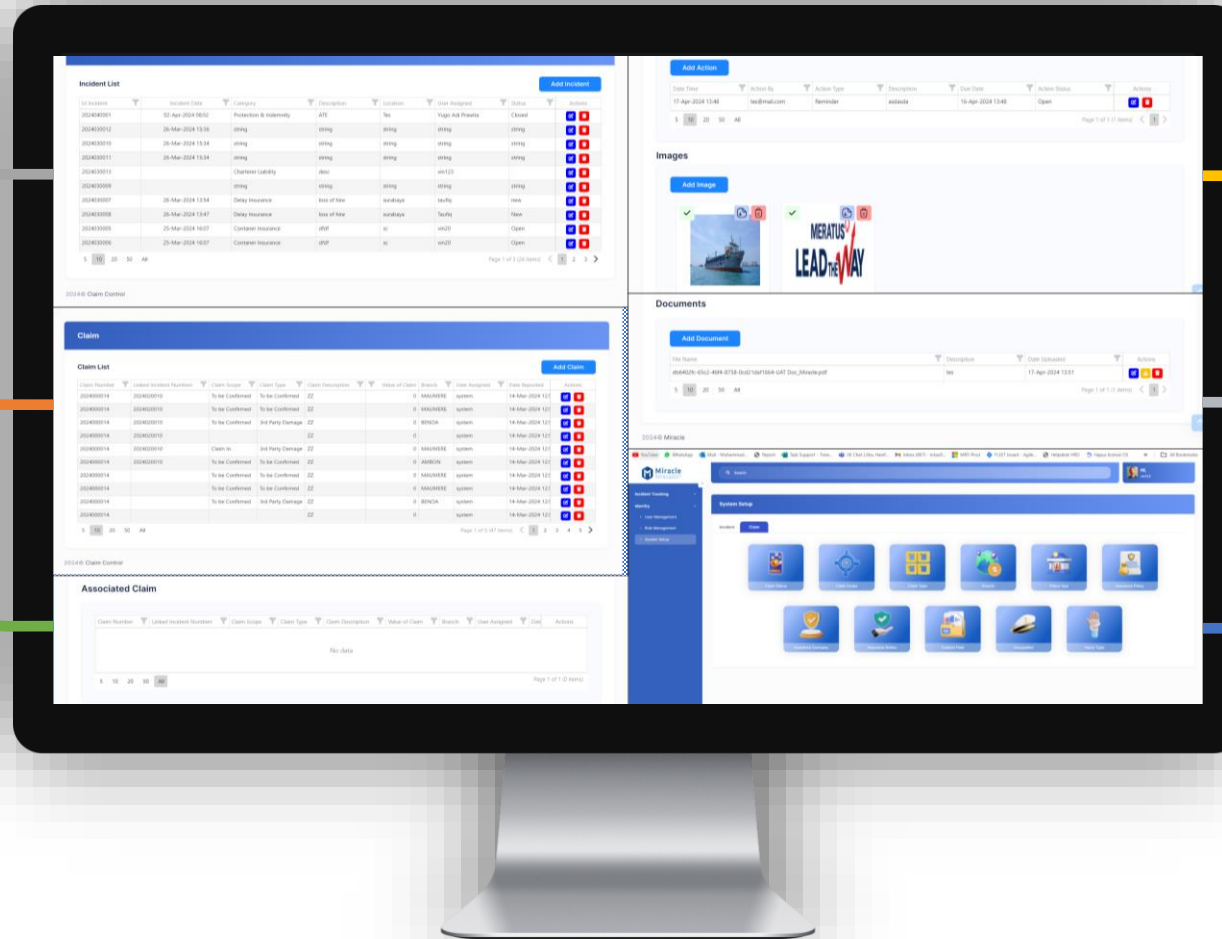

Send reminders or requests directly to the relevant user via email.

## Media Sharing

Enable uploading and downloading images and documents

## System Setup

Show all items from input list and Customizable fields.
