Pangaribuan, Sumatera Utara

I am a student of the Information Systems Program at the Del Institute of Technology. I have the skills and ability to interact with other people and clients. During my time as a student at Del Institute of Technology, I have practiced developing a deep interest in IT and System Design. I am very enthusiastic about the challenge of growing and continuing to improve my skills. My biggest motivation in life is to utilize my technical knowledge to benefit other people and organizations.
