EVANIE RIZKA AMALIA

Bekasi, West Java, Indonesia ✉ evanierizka97@gmail.com ☐ 082211573798 ▦ in/evanie-rizka-amalia-7aa458218

SUMMARY

Fresh graduate in Information Systems with strong interest in data analysis. Proficient in SQL and Python, skilled at transforming raw data into actionable insights. Experience includes data cleaning, statistical analysis, and creating visualizations to support data-driven decision-making and improve business. Enthusiastic about learning new things and eager to contribute to a team.

PROJECTS

Development of Alternative Universe Story Information Website using Laravel and MySQL
Universitas Gunadarma · April 2023 - July 2023
· Analyzing software requirements to understand user needs and ensure that the final product meets functional and non-functional specifications.
· Designing the navigation structure and UML diagrams to create a clear blueprint for the application's functionality and user experience.
· Designing the database schema to ensure efficient data storage, retrieval, and integrity while supporting application performance and scalability.
· Designing website pages with a focus on user experience, ensuring an intuitive layout and accessibility while aligning with branding guidelines.
· Created user-friendly interfaces with responsive design principles, enhancing accessibility and usability across various devices.
