PERSONAL PROFILE

Recent Information Technology graduate with expertise in SQL, Power BI, Excel, and Python. Increased inventory accuracy by 15% and reduced data entry time by 30% during internship. Collaborated with developers to streamline data processing workflows, led weekly meetings to address challenges and increase problem-solving capacity, resulting in operational improvements.

EDUCATIONAL BACKGROUND

Universitas Indraprasta PGRI – Jakarta

Informatics Engineering, 2019 – 2023

GPA: 3.23/4.00

- Relevant courses: Statistics, Algorithms, Programming, Databases.

WORK EXPERIENCE/INTERNSHIP

Lestary Gypsum | Software Developer Intern | May 2023 – July 2023

- Engineered Java-based desktop applications, optimizing data entry time by 30%.
- Integrated databases to enhance inventory accuracy by 15%.
- Collaborated with teams to optimize operational efficiency by 20%.

Project-Based Virtual Intern : Big Data Analyst Kimia Farma x Rakamin Academy | Oct 2024 - Oct 2024

- Conducted big data analysis, including:
- Imported datasets into BigQuery.
- Created analysis tables for branch performance.
- Designed dashboards in Google Looker Studio.
- Analyzed revenue and net profit trends using SQL.
- Developed visualizations, including Geo Maps for profit monitoring and branch rankings.

ORGANIZATIONAL EXPERIENCE

Paskibra | Assistant Coach | 2020 – 2024

- Coordinated training to achieve team performance goals.

CERTIFICATE

- SQL for Data Analyst (Beginner Level), August 2024
- Data Visualization (Beginner Level), September 2024

TECHNICAL ABILITY

- Analisis data: Excel, SQL, Python.
- Visualisasi: Tableau, Power BI, Looker Studio
- Pemrograman: Python

PERSONAL ABILITY

- Effective communication
- Problem solving
- Team collaboration
